This zoning district is intended to provide an area for low to moderate density residential development on adequate lot sizes to preserve the natural beauty of the area creating parks, prohibiting business including tourism business bases with limited housing rentals allowable by conditional use. Also to create green belts and establish setback requirements adequate to preserve the viewshed and create small roadside parks and picnic areas, view points and scenic overlooks along Dyea Bay.

Criteria for lands that are included in this zoning district are those that are relatively restricted in their development due to natural features and the lay-of-the-land, and that are presently without city water and city sewer.

IN ORDER FOR THIS APPLICATION TO BE CONSIDERED COMPLETE AND YOUR PERMIT REVIEW TO BEGIN, SKAGWAY CITY HALL STAFF MUST REVIEW THIS PERMIT APPLICATION AND ENSURE THAT IT HAS BEEN FILLED OUT COMPLETELY AND THAT ALL DRAWINGS, DIAGRAMS AND INFORMATION NEEDED HAVE BEEN SUBMITTED. Two sets of drawings must accompany your application, one set no larger than 11”x17”. Applications will not be processed until all application fees have been submitted.
Applicant Proposes to:  
- [ ] Construct  
- [ ] Alter  
- [ ] Enlarge  

All or part of:  
- [ ] Move  
- [ ] Convert  
- [ ] Demolish  
- [ ] Building  
- [ ] Building Interior  
- [ ] Building Exterior  
- [ ] Other __________________________

Cost of Project: $___________________

Total cost of construction includes finish work, painting, roofing, electrical, plumbing, heating, air conditioning, fire extinguishing systems and any permanent equipment.

Description of Work: ________________________________________________________________

Planned Completion Date: ____________________________________________________________

Statement of General Compliance: I/We hereby certify that the improvement indicated herein will be so constructed as to meet all applicable ordinances and codes as adopted by the City of Skagway.

The applicant warrants the truthfulness of the information in the application.

- If any information is incorrect the permit may be revoked.
- If the permit is issued wrongfully, whether based on misinformation or an improper application of the code, the permit may be revoked.

Property Owner/Contractor/Agent: _____________________________________  DATE________________ (signed)

With this application, you must include
A surveyed plot plan showing the location of all existing or proposed buildings or alterations. The plans must show all property lines, easements, or other property information related to this application.
# Building Permit Application Checklist

Unless otherwise noted by City staff, all of these must be included in your plans.

## Site Plan
- **Yes N/A**
  - North Arrow
  - Distances from building to other property lines or other buildings & structures
  - Location of fuel tank(s), other ancillary equipment
  - Required off-street parking
  - Water and sewer lines
  - Well and septic system
  - Existing and proposed electric meters
  - Easement dimensions
  - Location of signs

## Foundation Plan
- **Yes N/A**
  - Outline/size of all foundations including: type, interior bearing walls, piles and pads
  - Depth (minimum of 12” below grade)
  - All horizontal and vertical reinforcement steel indicating size and placement
  - All slab elevation changes
  - Ventilation and flow-through openings

## Floor Plan
- **Yes N/A**
  - Square footage: habitable _______ + non-habitable _______ = total _______
  - Exterior walls with dimensions
  - Layout for all rooms showing principle dimensions
  - Label all rooms (rooms with closets may be considered sleeping rooms and will require emergency egress)
  - All plumbing fixtures including water heater and washing machine hook-up
  - Door and window sizes, labeling egress windows, all header sizes, door swing
  - Changes in floor elevations
  - Tempered glass in hazardous locations
  - Attic access and dimensions
  - All storage areas
  - Entry door landings and dimensions
  - Interior and exterior stairs w/rise & run and width dimensions, handrails
  - All columns and beams with dimensions
  - Tenant and/or occupancy separation requirements

## Exterior Wall Section
- **Yes N/A**
  - Finished grade
  - Foundation
  - Type of wall: masonry, filled cell or wood
  - Connection of wall to foundation
  - Pressure treated bottom plates, sill seal
  - Size of studs & spacing
  - Ceiling height
  - Sheathing with vapor barrier
  - Wall insulation: type__________
  - R Value _________
  - floor sheathing thickness________

## Elevations (face view)
- **Yes N/A**
  - Elevation of each face is required
  - Doors, windows, landings, steps, porches,
  - Height of roof ridge, overhang and finished grade

## Interior Wall Section (load bearing)
- **Yes N/A**
  - Foundation – shape, size and steel reinforcement

## Floor Construction Plan
**RESIDENTIAL LOW DENSITY ZONING DISTRICT**

09/25/2007
smoke detectors (minimum of 1 per sleeping room, one in area adjacent to sleeping areas, minimum of 1 per floor) and all interconnected fire extinguishers

flammmable liquid storage or transfer

use of open flames (fireplace, gas stovetop, etc)

Mechanical, electrical

Yes N/A

Location & size of service entrance

Lights, switches, and regular outlets

Required GFCI & Arc Fault receptacles

Required lighting and switches

Location of heating appliances and ducting

UL cut sheets for all appliances

Tenant separation if required

Size of studs & spacing

Rafters: label as such with ridge beam, collar ties, species/grade and spacing

Engineered trusses: label as such, spacing

ceiling insulation: type

R Value

ceiling finish – 24” framing o.c. requires ½” ceiling board or 5/8” gypsum board minimum, 1/2” gypsum is ok for 16” o.c.

Roof sheathing – type, thickness, nailing pattern, nail size

Underlayment – type & weight drip edge

Sub-fascia size and material

Fascia size and material

Overhang dimension, type of ventilation, location and amount

Covering – metal, 3-tab, shake, etc. and nail/screw pattern

Roof slope

Means of anchoring roof to walls

Specialty Plans

Yes N/A

Elevated (above 30”) porch, deck and/or balcony details

Others as required

Roof System

You must check the Use Being Proposed or Altered

1. Permitted Uses

- Public parks and open space recreation;
- Watershed reserve;
- Single-family residence;
- Duplex; 2-family residence;
- 1 private garage per living unit;
- Non-commercial public water, sewer, electric and communication facilities;
- Municipal Public facilities such as fire department sub-station, solid waste transfer station, public works sub-station, and emergency services landing areas.
2. Accessory Uses

- Uses and structures customarily accessory and clearly subordinate to permitted principal uses, as determined by the building official.
- Necessary Outbuildings, accessory buildings not to exceed 320 square feet per use as listed in (i) – (vi):
  - 1 storage shed per lot: a semi-trailer, freight container, house trailer, RV travel trailer, storage trailer or van, may not be used as a long term or permanent storage shed.
  - Generator shed;
  - Tool shed;
  - Private personal use greenhouse;
  - Well house;
  - Wood shed.
- Home occupations provided that the conditions listed in Section 19.02.010 are met.
- Private personal use gardens.

3. Conditional Uses (a conditional use permit is needed)

**Purpose.** A conditional use permit gives site specific flexibility to the zoning ordinance in a uniform and controlled manner. It permits uses that are desirable to the community, but may not be suitable at every location in the zone based on character, intensity, size or impact on surrounding uses. The planning commission may attach restrictions and conditions designed to fit the special problems, which the use presents.

*Please complete a Conditional Use Permit Application if your project falls within any of the categories listed below.*

- Churches;
- Day Care Facilities;
- Temporary structures for residential use, used in conjunction with building or land development, for up to eighteen months;
  - Temporary structure for residential use means RV or trailer or other livable structure of at least 100 square feet with sanitary and kitchen facilities to be occupied during construction of a permanent residence that will be removed at the end of the 18 month construction period.
- Accessory housing structures;
  - Minimum of three hundred (300) square feet.
  - Maximum of six hundred (600) square feet.
  - Must have stand alone water, DEC approved sewer and electricity, meeting current codes.
  - No setback variances will be granted for new construction.
  - All lot coverage, off-street parking and setback requirements for this zone still apply.
  - Construction must meet International Building Code for efficiency dwelling units.
- Commercial public water, sewer, electric, communication and other facilities;
- Multiple storage structures or storage structures above 320 square feet;
- Other appropriate uses as determined by the planning commission pursuant to subsection B of Section 19.04.060.
Prohibited Uses In the Residential Low Density Zoning District

1. Any use or structure not of a character indicated under permitted principal and accessory uses, or permitted by conditional uses.
2. Mobile homes.
3. Congregate residences/apartment houses/multiple family structures.
4. Sand and gravel operations.
5. Mining and quarry operations.
6. Kennels;
   a. Definitions:
      (i) "Kennel" means a place where domestic animals or birds are kept or bred in numbers greater than six (6) per species and may include fenced areas, yards or structures. This definition shall not apply to areas used for the keeping of animals by veterinarians or the City.
      (ii) "Domestic animal" means every kind of animal that is domesticated (not wildlife), including (without limitation) livestock of all kinds, dogs, cats, monkeys, birds and reptiles.
      (iii) "Livestock" means every kind of domestic animal that is four (4) footed and ordinarily larger than a dog; and includes (without limitation) cattle, horses, swine, goats, sheep and llamas.
7. Timber harvesting and storage.
8. Cemeteries.
9. Pipelines and railroads.
11. Commercial greenhouses, agriculture and horticulture.
12. Campgrounds.

Does your proposed project meet the following requirements? (you must check "yes" or "no")

Unless otherwise noted, if the answer is no to any of the questions below, you must get a variance permit from requirements. A variance permit must be approved by the Planning Commission before you can begin construction.

No variance shall be granted because of special conditions caused by actions of the person seeking relief, or for reasons of pecuniary hardship or inconvenience; nor shall any variance be granted which would permit a land use in a district in which that land use has been prohibited. Variances are intended to provide a mechanism for the relaxation of such standards as minimum lot or yard requirements, setback, or building coverage, when the applicant shows, and the planning commission finds, that the criteria in 19.04.060(A) subsection 8 are met.

1. Minimum Lot Requirements
   N/A ☐  Yes ☐  No ☐
   1. Lot Area.
      a. Property owners as of December 7, 2006 per Ord. No. 06-21 may subdivide their property into no less than 1 acre lots.
      b. 2 ½ acres
      c. Except that all lots within Taiya Inlet Subdivision created January ___, 2007, Plat # _____ shall not be reduced in size.
2. **Minimum Lot Width**  
   
   Minimum Lot Width: N/A □ Yes □ No □  
   Lot must be wide enough to provide access and other easements and setbacks.

3. **Minimum Building Setback Requirements**  
   
   Minimum Building Setback Requirements: N/A □ Yes □ No □  
   1. Road frontage, twenty-five feet (25’);  
   2. All other lot lines, twenty feet (20’);  

4. **Maximum Lot Coverage By All Buildings**  
   
   Maximum Lot Coverage By All Buildings: N/A □ Yes □ No □  
   Maximum Lot Coverage: Fifteen percent (15%).

5. **Maximum building height:**  
   
   Maximum building height:  
   
   Maximum building height: N/A □ Yes □ No □  
   Three (3) stories, but not to exceed thirty-five feet (35’) in any case.

   If the answer is no, you must get specific approval for an exemption as part of the planning commission permit review. Criteria for review are found at section 19.04.060.C4.

6. **Parking Requirements**  
   
   Parking Requirements: N/A □ Yes □ No □  
   All requirements within Section 19.08.020, Provision of Off-street Parking, must be followed. Required off-street parking, shall allow enough parking for all occupants to park all personal vehicles off-street.

7. **Visibility at Intersections Must be Assured**  
   
   Visibility at Intersections Must be Assured: N/A □ Yes □ No □  
   1. No vehicle shall be parked within twenty feet (20’) of any street intersection;  
   2. To ensure that a vehicle’s driver has good visibility at street intersections, on corner lots there shall not be a fence, wall, hedge, or other planting or structure that will impede visibility between a height of two feet six inches (2’6”) and eight feet (8’) above the centerline grades of the intersecting streets.

8. **Signage Requirements in Chapter 19.08.012 B**  
   
   Signage Requirements in Chapter 19.08.012 B: N/A □ Yes □ No □  
   Prohibited signs: Off premises signs visible from a public right-of-way.  
   Allowed signs: One (1) sign, not to exceed eight (8) square feet, to identify a home occupation; To identify a conditional use: total sign area shall not exceed twelve (12) square feet. To identify public and semi-private institutions, churches, and similar uses: total sign area shall not exceed twenty (20) sq. feet.

9. **Sanitary Treatment System Requirements**  
   
   Sanitary Treatment System Requirements: N/A □ Yes □ No □  
   Septic systems, leaching fields, or other private sewerage facilities may be permitted provided that the owner or developer submits plans stamped by an engineer licensed in Alaska, percolation and water table depth data suitable for analysis of the feasibility for on lot water and sewer systems to the City and the Alaska Department of Environmental Conservation. Project applicants/owners are responsible for ensuring that their project meets all federal and state septic systems, leaching fields, or other private sewerage facility requirements.
10. **Flood Protection**

Some lands in the Residential-Low Density (RLD) zoning district may fall within the Taiya River floodplain (SCMP Figure 3.3 Natural Hazards Boundary Map). The Planning or Building Official or Planning Commission must ensure that all requirements within Chapter 15.12, Flood Zone Land Use, are followed, particularly those at 15.12.040, that govern building and sanitary system construction in these areas.

If you checked “no” to any of the questions listed above, except the building height request, you need a variance permit.

Application fee: $ ____________________ Date paid:____________________ Receipt # ___________________________

*This applications is not your permit to start construction, you will receive your permit in the mail after this application has been approved by the Fire Department and Building Official, and/or the appropriate commission. Please note that all other services provided by the City of Skagway, such as utility services, are separate issues and need a separate application.*
Please be aware of the following items:

- A permit is a legally binding contract between the builder and the City of Skagway. It is granted on the express condition that the construction shall, in all respects, conform to the ordinances of this jurisdiction including zoning ordinances, which regulate the construction and use of buildings, and the currently adopted International Building Codes. This permit may be revoked at any time upon violation of any ordinances or codes.

- The Code Enforcement Office must be notified in advance of any construction work and requires a minimum of 5 inspection calls: footings (prior to placement of forms), foundation (prior to pour with steel in place), slab or under floor, framing prior to inside covering, final inspection. Other inspections may also be needed depending upon the type of construction. It is your responsibility to arrange for inspections, and this office should be called at least 24 hours in advance.

- The Code Enforcement Office reserves the right to reject any work that has been concealed without first having been inspected and approved by this department in accordance with all applicable codes.

- A copy of APPROVED construction documents (building plans and other supporting documents) must remain at the building site at all times during construction.

- Any deviation from the approved plans must be authorized and approved subject to the same procedure for the original set of plans.

- Permits are valid for a period of 18 months and work must start within 6 months.

- Final inspection call shall not be made until all construction work is completed and heating apparatus is installed and functional. Final finish applications not required.

- Final inspection and Certificate of Occupancy must be obtained before occupying building.

- The Code Enforcement Office will do everything reasonable and prudent to help you achieve your goal. However, we will not do the work on construction documents for you.

19.08.020 Provision of off-street parking.

A. Off-street Parking Requirements.

1. There shall be provided at the time of the construction of any main building, or at the time of the alteration, enlargement or any change in use of any main building, permanently maintained, free off-street parking facilities for the use of occupants, employees or patrons of such building, and it shall be the joint and several responsibility of the owner and/or occupant of any main building or structure to provide, and thereafter maintain, minimum free off-street parking facilities listed in (a)-(d) below. Sections (a)-(c) apply to development in all zoning districts and businesses except retail businesses in the Skagway Business Historical District. Off-street parking requirements for retail businesses in the Skagway Business Historical District are listed in section (d):

   a. Dwellings.
   (i) For each single-family dwelling, two (2) family dwelling or multiple-family dwelling, one (1) private parking space for each dwelling unit;
   b. Buildings Other Than Dwellings.
   (i) Motel, one (1) private parking space for each dwelling unit or guestroom;
   (ii) Hotel or boardinghouse, one (1) public parking space for every three (3) guestrooms;
   (iii) Church, auditorium, theater or meeting hall, one (1) public parking space for each five (5) seats, based on maximum seating capacity;
   (iv) Hospital, one (1) public parking space for each four (4) beds, based on maximum capacity;
   (v) Bank, office building, professional office, funeral parlor or clinic, one (1) public parking space for each two hundred fifty (250) square feet of floor area;
   (vi) Retail store or business, one (1) public parking space for each five hundred (500) square feet of floor area;
   (vii) Trailer park, one (1) private parking space for each trailer space;
   (viii) Wholesale stores, warehouses and storage buildings, one (1) public parking space for every three (3) employees;
   (ix) Industrial and manufacturing establishments, one (1) public parking space for every three (3) employees.
c. Commercial vehicles. The owner or operator of any commercial enterprise involving use of commercial vehicles shall provide and utilize off-street parking adequate to park all vehicles used by that enterprise for commercial purposes.

d. Business establishments in the Business-Skagway Historical Zoning District:
   (i) For each dwelling unit, one (1) private parking space.
   (ii) Commercial vehicles. The owner or operator of any commercial enterprise involving use of commercial vehicles shall provide and utilize off-street parking adequate to park all vehicles used by that enterprise for commercial purposes, but may be located outside the business Skagway Historical Zone provided that provisions of SMC 19.06 are met.

B. General Conditions.

1. Every lot or parcel of land used as a public parking area shall be developed as follows, subject to the approval of the plans by the planning commission:
   a. Such area shall be adequately and satisfactorily surfaced;
   b. Where such area adjoins the side of a lot in an R district, it shall be separated from such lot by a fence not less than four feet (4’) or more than six feet (6’) in height. Such fence shall be maintained in good condition;
   c. Any lights provided to illuminate such parking area shall be so arranged as to reflect the light away from adjoining premises and streets.

2. In the case of a use not specifically mentioned in this section, the requirements for off-street parking facilities shall be the same as the above-mentioned use that, in the opinion of the planning commission, shall be deemed most similar.

3. Detailed plans for driveways shall be submitted to the planning commission for approval with regard to the location and relation of the same to the public street or highway.

4. All parking spaces provided pursuant to this section shall be:
   a. On the same lot with the main use they serve;
   b. On an adjoining lot; or
   c. On any lot within one hundred fifty feet (150’) of the use if the Planning Commission determines that it is impractical to provide parking on the same lot.

5. No existing parking area, and no parking area provided for the purpose of complying with the provisions of this title shall hereafter be relinquished or reduced in any manner below the requirements herein established.

6. Detailed plans for all parking and loading areas shall accompany the building plans when the application for building permit is made. Such plans shall show following:
   a. Area of the plot involved;
   b. Layout and dimensions of each parking space; and
   c. Entrance and exit to the parking area.

19.02.010 Definitions.

“Parking Space, Private”, “Private parking space” means any automobile parking space not less than ten feet (10’) wide and twenty feet (20’) long.

“Parking Space, Public”, “Public parking space” means an area of not less than two hundred fifty (250) square feet, accessible from streets and alleys, for the storage of passenger motor vehicles operated by individual drivers.
