Working Together to Build Tomorrow’s Skagway
Community Work Session

6:00 p.m., Friday, May 10, 2019, Assembly Chambers

- What is your long-term vision for Skagway?
- What do we want our port to look like in five years, ten years, or even 20 years?
- How will local infrastructure keep up with increased passenger traffic?
- How will quality of life be affected?
- How will we meet future housing demands?
- How will we balance cruise traffic with industrial port usage?
- How will we develop our uplands and ensure current stakeholders have a voice?
- How will we manage human and vehicle traffic?
- When do we reach our saturation point for visitor traffic?

All community members are encouraged to attend to provide input for the development of a comprehensive vision for Skagway!
