- More than one bid for the same work from an individual, firm, or corporation under the same or different name. (A party that has quoted prices to a Bidder is not thereby disqualified from quoting prices to other Bidders or from submitting a bid directly for the project).
- Evidence of collusion among Bidders as set out in the Non-Collusion Declaration attached to the Official Bid documents.

<u>Rejection of Bids:</u> The Municipality reserves the right to reject any and all bids when such rejection is determined to be in the best interests of the Municipality; to reject the bid of a Bidder who has previously failed to perform properly, or complete on time, any contracts or projects; to reject the bid of an Bidder who is not, in the opinion of the Municipality and sole discretion of the Municipality, in a position to perform the contract; and to reject a bid as non-responsive where the Bidder fails to furnish the required documents, fails to complete the required documents in the manner directed, or makes unauthorized alterations to bid documents.

<u>Non-Responsive Bids</u>: Bids shall be considered non-responsive and shall be rejected if there are unauthorized additions, conditional or alternative bids, or irregularities of any kind which may tend to make the bid incomplete, indefinite, or ambiguous as to its meaning.

Documents for Successful Bidder: Prior to contract execution and Notice to Proceed, the successful Bidder shall complete and submit the following documents within seven (7) days following Notice of Intent to Award, as well as any other documents that may be requested by the Municipality.

No contract shall be considered as effective until it has been fully executed by both parties (Bidder and Municipality).

Failure to Execute Contract: Failure of the successful Bidder to execute and return the contract agreement and other documents within seven (7) days after receipt of the Municipality's Notice of Intent to Award, will be just cause for the rejection of the award. Award may then be made to the next lowest responsive, responsible and qualified Bidder, or the work may be re-advertised, in the sole discretion of the Municipality.

If the Municipality does not execute the contract agreement within fifteen (15) days following receipt from the Bidder of all required documents appropriately executed for the award of the contract, the Bidder shall have the right to withdraw its bid without penalty.

Skagway Bidder Preference: A bid shall be awarded to a Skagway bidder if Bidder's bid is not more than five percent higher than the lowest responsive nonresident bidder's. A bid shall be rejected if it contains a material alteration or an erasure. The Municipality may reject the bid of a bidder who failed to perform or failed to timely perform on a previous contract with the Municipality or any municipality. The Borough manager may reject any and all bids and waive any informalities or minor irregularities in the bids. Where all bids are rejected, and new bids are called for on substantially the same purchase or contract, each of the bidders whose bids were rejected shall be timely notified of the new call for bids and of changes, if any, in the specifications and requirements.

<u>Permit Responsibility:</u> Successful Bidder/Contractor shall obtain any and all necessary permits from Federal, State and local authorities for this project, including any applicable fees and costs associated with the permit/process.

Davis Bacon: Alaska Labor Standards, reporting and prevailing wage rate determination is made part of this bid package. If this project is over \$25,000, a notice of award will be sent to the Alaska Department of Labor - Wage and Hour Section. The State will require that certified payroll forms are completed and the State has the right to randomly audit the successful bidders company to ensure Davis Bacon Wages are being paid for this project. Both State and Federal wage rates apply to this contract. Contractor must use the higher of the wage rates included in Specification Section 00420 Alaska Labor Standards Reporting, and Prevailing Wage Rate Determination.

Payment and Performance Bond: If this project is under \$50,000 no bonding is required and the bonding bid sheet does not need to be completed. If this project is over \$50,000 but under \$150,000, bidder <u>must</u> sign the bonding exemption checklist & have it notarized. Answers to questions on Bonding Exemption Checklist page may require bonding papers or a letter from bonding company saying contractor is bondable for this project for the amount of the project. If this project is over \$150,000, bonding <u>IS</u> required. For purposes of bid documents, a signed letter from a surety company committing to the bonding of the contactor in the amount of the project will suffice until the time of actual signing of the contract, when bond must be on hand. (See Bonding Exempt Checklist)

Ownership of Bid Submittals: Once bids are opened, they become the property of the Municipality, and shall not be returned. Bids may be withdrawn by submitting a written withdrawal request to the same address to which the bid was submitted if said request is received by the Municipality one (1) hour prior to the bid opening time and date. The bid shall be returned to the Bidder unopened.
