RE: Direction to Staff Regarding Proposed Haines-Skagway Trail

I am requesting the Assembly approve the inclusion of the proposed Haines-Skagway trail system in the Interior Trails project scope of work.

Starting near the delta of the Katzehin River, this trail would go via the eastern portion of the Lynn Canal and join our current trail system near Sturgill's Landing. After the trail was finished, hut systems along the path could be considered.

A Haines-Skagway path would be advantageous to the local hiking community and promote independent traveler tourism. A joint project with our neighboring community would facilitate stronger community relations.
