Mayor and Assembly,

Municipal code 3.15.010 requires three of the DCAB members to be "Dyea property owners", but it does not define a geographic area of land ownership for this purpose. Recently, this created some confusion when we needed to fill Wayne Greenstreet's position. At that time, I was considered a Dyea property owner but Michael Yee who lives a short distance from me was not. We were able to solve the problem with the help of the mayor because Michael also owns property on Toad Circle and was qualified with that ownership. I will be resigning from the Board this fall and the DCAB will select a new member to fill one of the three "Dyea property owner" seats.

Our proposal defines a geographic area only for the purpose of delineating who can fill these three designated seats. The Skagway residents who own property in the area shown on the map represent diverse interests, yet they share a common experience and knowledge from being impacted on a daily basis by life in the Dyea Valley.

Bruce Weber

Dyea Community Advisory Board, *Chair*
