Public Notice RE: COVID-19 Vaccines

Need a Vaccine?

- If you are a Skagway resident aged 18 years or older and wish to receive a COVID-19 vaccine, call the clinic at 983-2255 to be placed on the waitlist.
- If you have a child aged 16-17 years that you wish to have vaccinated with the Pfizer vaccine, send their name, date of birth, and your contact info to clinicinfo@skagway.org.

Appointments

Most COVID-19 vaccine workshops will be held at the Public Safety Facility (PSF) at State and 17th. You may receive an automated appointment reminder that lists the clinic as the location. If you received a first dose at the PSF, you will receive your second dose at the PSF. If you are not sure of the place or time/date of your appointment, please call the clinic to verify.

Vaccination Cards

When returning for your second dose, don't forget to bring the vaccination card you were given after your first dose!

Masking, social distancing, and hand hygiene

Regardless of vaccination or temporary immunity due to having had COVID-19 recently, the clinic recommends everyone keep up all the same precautions including wearing a mask, social distancing, and hand hygiene:

- When you get vaccinated, it takes time for the vaccine to train your body to fight COVID-19, so you may not be protected by the vaccine until a few weeks after your second dose.
- No vaccine is 100% effective.
