### **DAHL MEMORIAL CLINIC COVID-19 TESTING CAPABILITIES UPDATE**

***Skagway, Alaska, April 17, 2020*** – The Dahl Memorial Clinic recently received an Abbot ID Now portable testing instrument to begin rapid testing for COVID-19. While this is a positive development for DMC we want to stress to the public that we still must follow DHSS testing protocols and this does not expand the availability of testing for individuals not meeting the testing criteria at this time. We continue to pursue additional test kits for expanded testing.
