October 15, 2020

Public Notice

Per the EOC announcement made earlier today, the clinic received a positive result on a COVID-19 test. The clinic is closed for 48 hours in order to test staff, communicate with the Division of Public Health, and to disinfect the clinic. The Division of Public Health is actively contact tracing. Please give them time to do so. The clinic will reopen as usual on Tuesday. If anyone requires additional coronavirus testing please contact SEARHC/STC.

As a reminder, Public Health considers a close contact to be someone who spent more than 15 minutes within 6 feet of a COVID positive person, with or without masks. If Public Health does not contact you within the next 48 hours you were likely not considered a close contact. Public Health will advise all close contacts of recommended next steps and isolation protocols.

The Skagway Emergency Operations Center (EOC) advises Skagway residents to **shelter in place until contact tracing is complete**. Shelter in place consists of limiting activity, travel, and business functions to only the most basic and essential needs.

We made it this far Skagway. Stay calm, be kind, and we will get through this together.

Este Fielding
Clinic Director
