Public Notice RE: Recent Positive COVID-19 Cases

Please be advised that several individuals that recently tested positive for COVID-19 had attended events at the Skagway Brewing Company on Saturday October 16. **There is concern for community spread.** If you attended these events last weekend and are experiencing COVID symptoms (such as fever, body aches, headaches, congestion), call the clinic at (907) 983-2255 to schedule a COVID-19 test.

The clinic is still experiencing test supply shortages. Home antigen test kits are available to anyone who is not symptomatic, but concerned about close contact. Testing should be done 5-7 days after exposure. If the antigen test returns positive, call the clinic to schedule a confirmation test per state testing protocol. Regardless of antigen test result, if you experience symptoms call the clinic to schedule a COVID-19 test.

All community members, including those who are vaccinated, are reminded to wash hands, social distance, wear a mask in public settings where other social distancing measures are difficult to maintain, and get tested if you are sick.

Este Fielding
Clinic Director
