C. The requested conditional use will generally be in harmony with the comprehensive plan, coastal management plan, and other officially adopted plans:

How, please explain?

The proposed structure and use is in alignment with the comprehensive management plans. The proposed structure and its commercial business will provide services, including refreshments, to recreating visits.

The Coastal Management Program Area encompasses all lands within municipal boundaries excluding State and Federal Lands.

Does this conditional use fall within the Coastal Management Program Area? □ No ★ Yes

Skagway’s inland coastal zone boundary includes all islands and the lands and waters within:
- The timberline of the coastal Sitka spruce/hemlock forest,
- Slopes contiguous with marine waters where mass wasting is evident or likely to occur, and
- Unvegetated areas left by receding glaciers where the coastal forest is likely to invade.

Skagway’s seaward coastal zone boundary includes all marine waters and tidelands within the city limits.

Have you completed a Coastal Project Questionnaire? □ Yes ★ No

- When a project is proposed for development within the City of Skagway’s coastal zone, it is subject to the SCMP’s enforceable policies, listed in Chapters 4.0 and 5.0 (and consolidated in Appendix A) of the Skagway Coastal Management Plan. If the project is a federal activity, or needs State or federal permit or other approval, the State reviews the project for consistency with the ACMP and the Skagway CMP, and Skagway formally participates in the State-coordinated review. If only local approval is required (such as a conditional use permit), then the Municipality reviews the project for consistency as part of the Planning Commission’s regular permit review process.
- Federal lands and waters are excluded from Skagway’s coastal zone. However, the federal government is not exempt from coastal management. Activities that require a federal license or permit, or that are sponsored by a federal agency, that would affect coastal uses or resources within Skagway’s coastal zone must be consistent with the Skagway CMP to the maximum extent practicable.

Proposals subject to the Coastal Management Program must meet the following criteria before approval:

A. Uses and activities must be compatible with the goals and objectives of the Skagway Coastal Management Program. The subject uses and activities of the Coastal Management Program are as follows:

☐ Coastal Development;
☐ Coastal Access
☐ Energy Facilities
☐ Fisheries and Fishery Enhancement
☐ Habitats
☐ Historic, Prehistoric, Archaeological and Cultural Resources
☐ Natural Hazards
☐ Recreation
☐ Sand and Gravel Extraction
☐ Subsistence Uses
☐ Transportation Routes and Facilities
☐ Utility Routes and Facilities

B. Priority use of the shoreline shall be accorded to uses and activities which are water-dependent or water-related, and to those uses and activities which are neither water-dependent or water-related for which there is no feasible and prudent inland alternative to meet the public need for the use or activity. Uses and activities which do not require shoreline access or are not enhanced by shoreline proximity must be located in a manner consistent with the policies and rules listed in SMC 17.40.
Planned Completion Date: _Thirty days after receipt of permit._

Statement of General Compliance: I/We hereby certify that the improvement indicated herein will be so constructed as to meet all applicable ordinances and codes as adopted by the Municipality of Skagway.
