

SKAGWAY 2030

COMPREHENSIVE PLAN

WHAT IS A COMPREHENSIVE PLAN?

Comprehensive plans are 'big-picture' documents—they look 10–20 years into the future to confirm a community's goals and are used as the legal basis for zoning. By bringing together diverse voices, they guide decisions on community growth, land use, housing development, transportation and infrastructure investment, recreation, and public services.

Comprehensive plans for the future are grounded in today's economic opportunities and challenges. A useful comprehensive plan must tackle the issues that matter to residents—it must reflect community values and local conditions. It is not unusual for zoning and other code changes to be adopted to help achieve the desired vision.

2019 TIMELINE

WHO IS CREATING THE COMPREHENSIVE PLAN?

You!

This is Your Plan and Your Future: There will be multiple, diverse, and convenient ways to make your voice heard throughout the project. We cannot prepare this plan without your ideas, insights, and opinions.

Municipality of Skagway

Planning Commission: Project Lead, Hosts Public Work Sessions + Public Hearings, Recommends Final Plan to Assembly
